As always, we appreciate your confidence in selecting Northern Institutional Funds as your investment partner. We hope you find this material useful as you prepare your tax filings for 2021.

## DIRECT U.S. GOVERNMENT & AGENCY OBLIGATIONS

### Percentage of Dividends Derived from Direct U.S. Government & Agency Obligations

In some states, mutual fund dividends derived from certain direct U.S. government and agency obligations may be exempt from state income taxes. A portion of the dividend income paid by Northern Institutional Funds during 2021 may qualify for this exemption. This table shows the percentage of dividends (the amount reported in box 1a of Form 1099-DIV) attributable to direct U.S. government and agency obligations for each of the Northern Institutional Portfolios during 2021.

PORTFOLIOS	U.S. Government	Federal Farm Credit Bank	Federal Home Loan Bank	Student Loan Marketing Association	Tennessee Valley Authority

## ALTERNATIVE MINIMUM TAX

The Tax Reform Act of 1986 requires that interest income from certain municipal obligations called “private activity bonds” be included as a tax preference item for the Alternative Minimum Tax (AMT) computation on your federal tax return. Form 1099-DIV (Box 12) reports the tax-exempt income that is subject to the AMT. The table below reports the percentage of tax-exempt income subject to the AMT.

PORTFOLIOS	AMT Percentage
Municipal	25.67%

## PERCENTAGE OF 163(J) INTEREST DIVIDEND

The Treasury Department and the Internal Revenue Service (IRS) have finalized regulations that permit regulated investment companies (RICs) to pass through interest income to corporate shareholders for purposes of determining such corporations’ interest expense limitation under section 163(j). The final regulations provide a RIC’s corporate shareholders with interest income rather than ordinary dividend income, potentially increasing the amount of interest expense the shareholders can deduct under the new limits implemented by the 2017 tax legislation commonly referred to as the “Tax Cuts and Jobs Act.”

Listed below are the percentages of total ordinary income distributed by the fund during the 2021 calendar year (Box 1a Total on Form 1099) that can be treated as a 163(j) Interest Dividend.

PORTFOLIOS	163(j) Percentage
Liquid Assets	96.39%

## TAX-EXEMPT INCOME EARNED BY STATE

Generally, the U.S. government does not impose federal income tax on interest income derived from municipal obligations. In addition, most states do not impose income tax on interest income derived from their own municipal obligations. This table shows the portion of dividends derived from interest income on state and local obligations on a state-by-state basis during 2021 for the Municipal Portfolio. Because tax laws vary among localities and states, we urge you to consult with your tax advisor about the specific rules in your respective state.

*You could lose money by investing in the Portfolios. Although each of the Portfolios, except for the Municipal Portfolio and Prime Obligations Portfolio, seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The share price of each of the Municipal Portfolio and Prime Obligations Portfolio will fluctuate, when you sell your shares they may be worth more or less than what you originally paid for them. The Municipal Portfolio and Prime Obligations Portfolio may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the Portfolio's liquidity falls below required minimums because of market conditions or other factors.
